**Approx 5-1/2 hrs ride time, 9-1/2 hrs total 248 Total miles**

**NOTE-** Mileages may vary slightly depending on which model motorcycle you ride and some mileages were revised on a 2<sup>nd</sup> proof ride on a bike versus a car. On longer distances between turns for example the difference is greater (on most V Stars versus a car) so it is always best to be looking for the next route change by visual identification of street signs instead of taking the mileage shown at face value.

Hows that for a disclaimer!!!!
